

ABOUT US AND SOME SIMPLE RULES

The aim of this group and its subsidiary factions in all of Spain and the islands is; to provide independent advice information and support for all interested expatriates and Spaniards alike. Such a support group is imperative especially for hundreds of thousands of non-Spanish residents who often struggle to understand the existing and ever changing laws and rules.

We are an apolitical concern but with our growing membership intend to become a strong enough force to be able to lobby for our rights. We are aware that we also need a functional and serious consumer protection agency.

We provide a free service but funds are appreciated as with all CAB offices. You may be aware that we are holding our third seminar in the autumn. We now are a registered NPO organization.

We have rules such as being polite and correct with one another, we are not here to judge but to try our best to offer solutions.

We are not the usual expat group of which there are many great groups with everything from fire watch to advertising and selling your goods. We are not one of those and are now registered even though we do not have an office, we are CAB Spain. Please keep the posts in relation to this. We will not approve posts asking for service providers.

There is a links rule. That is to other websites, we rely on us giving accurate information and not supposition. Debates are allowed and encouraged on our website but not on the page. These tend to take precedent not allowing other questions to take priority.

Links allowed are governmental, state bodies, health, and dept. of social security, town hall, police and traffic links. You will though find most of

these on our website. By joining our group you are accepting and abiding by these rules. The website as stated earlier will allow you to debate, share information and experiences. There are many forums, one to ask the team for advice, one to share with the community, cafe for chit chat and fun, website navigation and use and forums for all regions. The directory not only has addresses but links on 'how to' such as applying for a duplicate driving licence and much more.

What **CAB** Spain is **NOT!**

CABS is not intended to be a replacement for professional services and our advice to you may well be that you need to seek professional assistance.

We can help you negotiate the day-to-day aspects of life in Spain but we are not equipped to perform the functions of Lawyers, Accountants or Tax Advisers. We have compiled a list of reliable and trustworthy professionals and will try to secure the best arrangements for you that we can. We already have a very good Legal company which has a wide presence in Spain.

We are quite convinced that, no matter what our input is, big or small, we will all be taking something out. Thank you for caring.
